

Analysis of Algorithms

CS 375, Fall 2018

Homework 10

Due **AT THE BEGINNING OF CLASS** Wednesday, October 24

- **Reading Assignment:** From your textbook (Levitin), please finish reading Ch. 4.
- *A general note:* When writing up your homework, please write neatly and explain your answers clearly, giving all details needed to make your answers easy to understand. Graders may not award credit to incomplete or illegible solutions. Clear communication *is* the point, on every assignment.

Exercises

1. With your teammates from your presentation group, please grade the submitted exercises given to you as part of the class presentations. Please be sure to provide enough feedback so that everyone who submitted exercises will fully understand the sorting algorithm! (If you'd like to give out a solution set as part of that, please let me know.)

Please submit the graded exercises to me. I'll look them over before returning them to the class.

2. Exercise 4.1.5.
