

L-systems

Oliver W. Layton

CS151: Computational Thinking: Visual Media

Lecture 27, Fall 2020

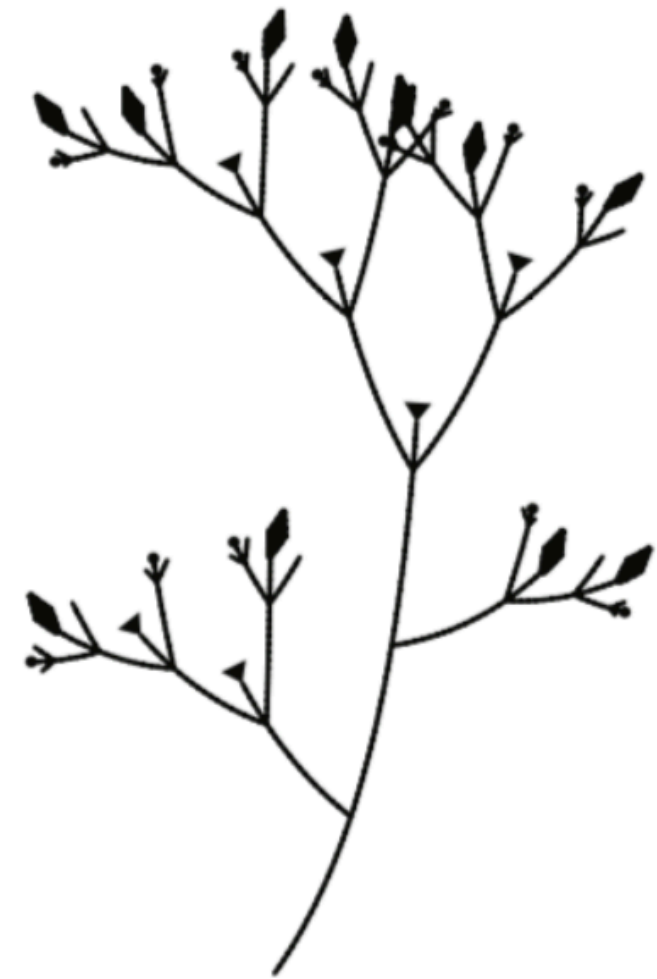

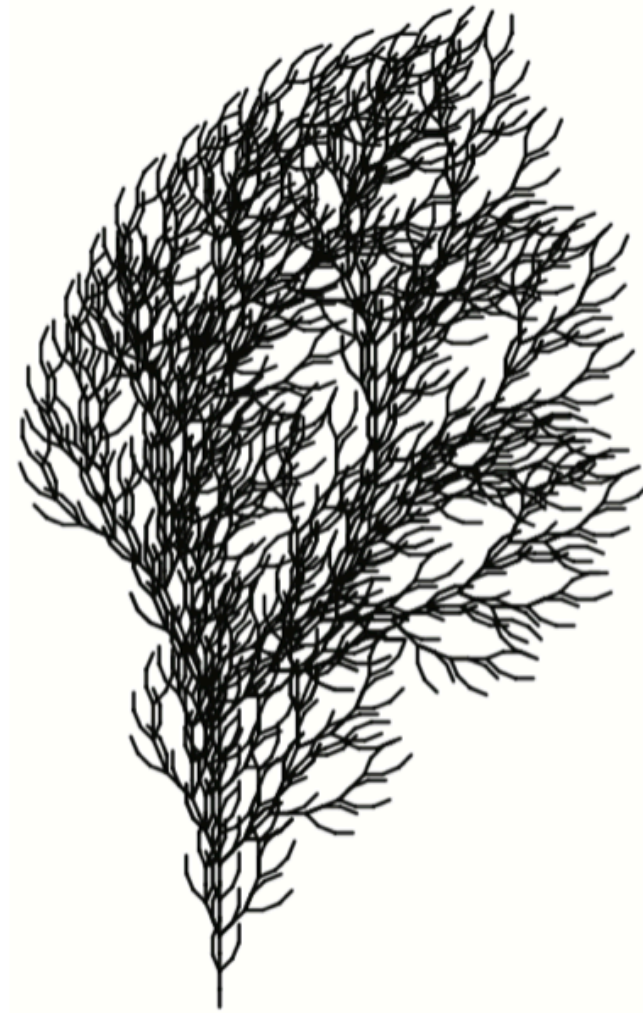

Friday October 28

Lindenmayer Systems (L-systems)

Idea: Use characters in a string to tell turtle what the do.

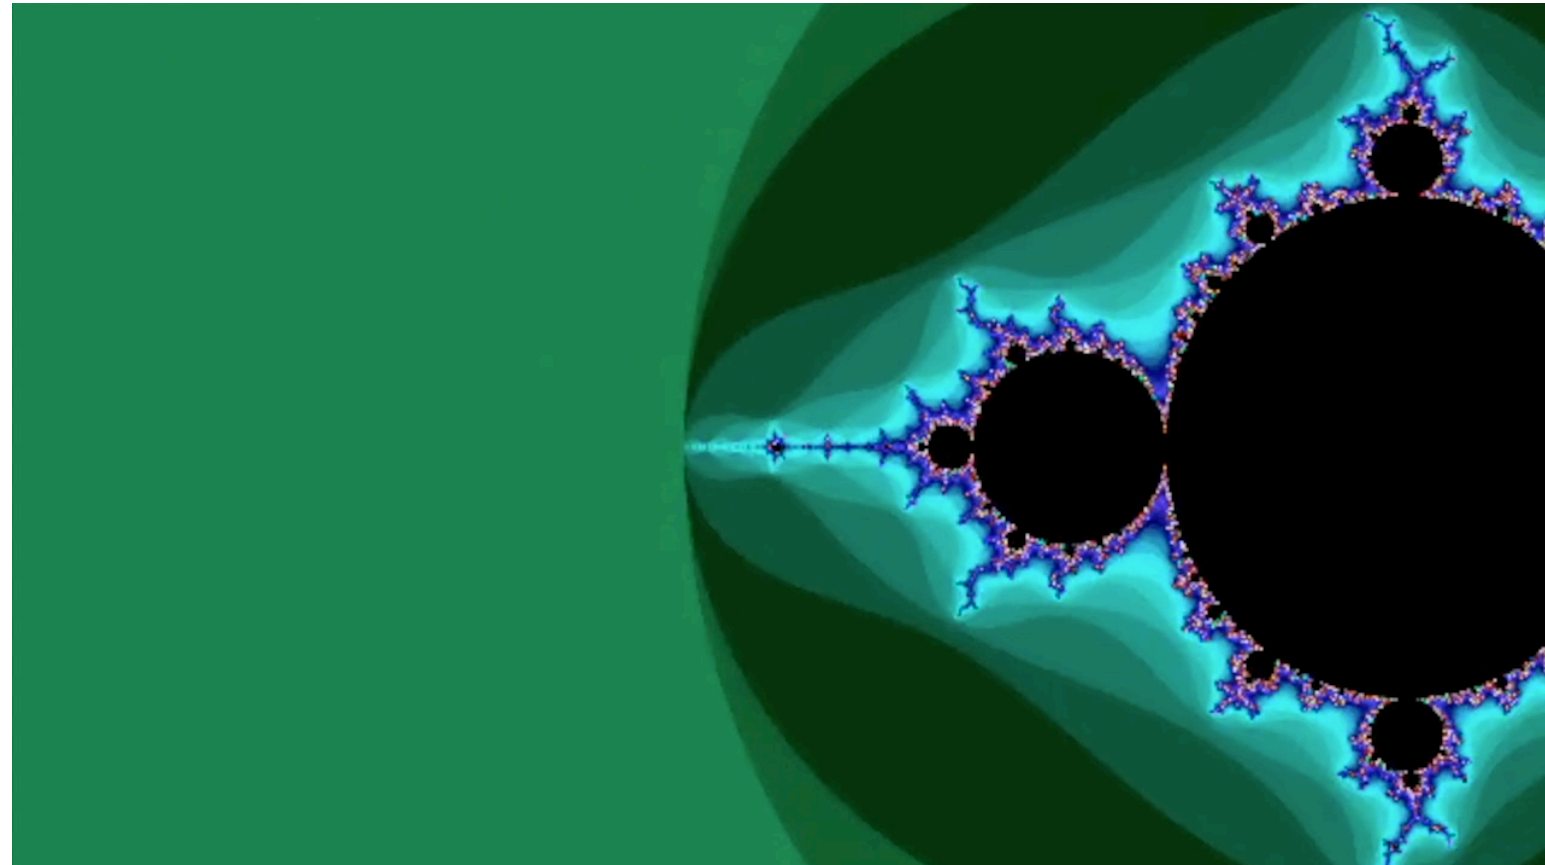

- Example: F means go forward, - means turn right, + means turn left.
- Drawing a square: ' F+F+F+F+ '

Can be used to draw photo-realistic trees/
plants

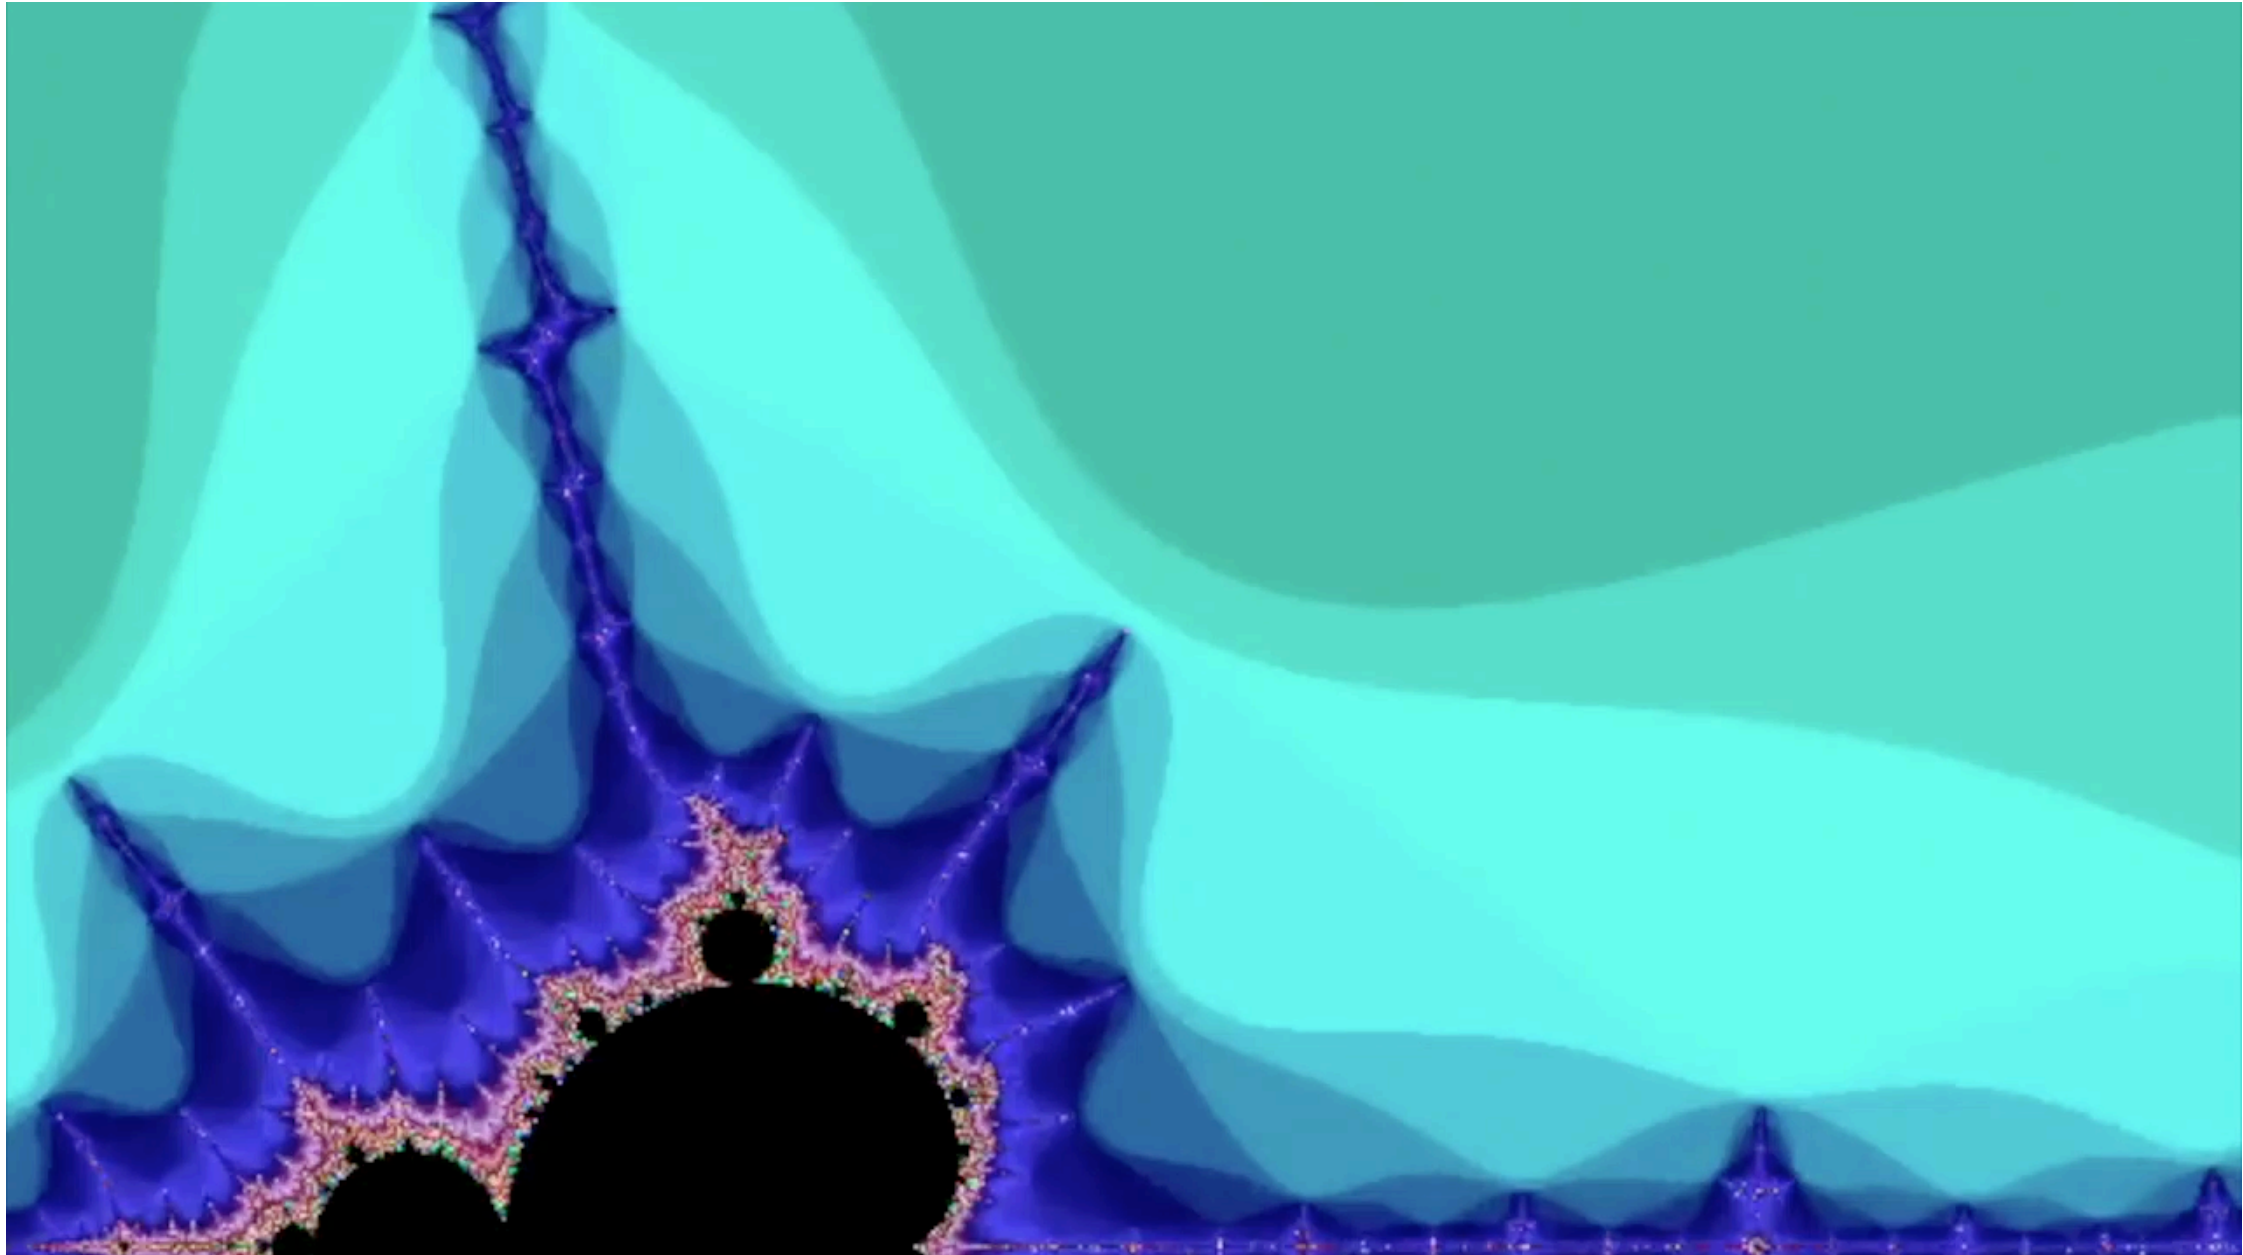

Can be used to draw fractals

What is a fractal?

Mandelbrot Set

Mandelbrot Set

Koch snowflake

Let's see how we can use L-system to make a Koch snowflake fractal
